- JavaScript | TypeScript | React.js | Next.js | jQuery | Redux | ES6 | JSX | TSX | Wordpress
- MySQL | MongoDB | Node.js | Express.js
- HTML5 | CSS3 | Bootstrap | Tailwind

PROFESSIONAL EXPERIENCE

Associate at K&K Studio

Lootify

June 2024 - April 2025

Full Stack Developer

- Developed a platform that allows users to earn rewards based on their engagement with streamers on Twitch and Kick.
- Integrated external APIs from Twitch and Kick to retrieve real-time data, including streamer information, live statuses, and user interactions.
- Developed a subscription queue system to manage the order of streamer subscriptions, optimizing user experience by ensuring smooth handling of requests.
- Collaborated with the team to ensure consistent and seamless integration of features.
- Tested and optimized communication between the frontend and backend to ensure a fast, responsive user experience while efficiently handling data.

Technologies : React.js / Node.js / Express.js / MySQL / Tailwind CSS / REST API / Twitch API / Kick API

Polygame

November 2024 - November 2024

Full Stack Developer

- Developed the complete logic for the fortune wheel system on the Polygame site, allowing users to interact with the wheel and win prizes in a dynamic and engaging manner.
- Developed the backend logic with Node.js and Express.js to manage the recording of user results and the calculation of rewards securely and efficiently.

Technologies : React.js / Node.js / Express.js / MySQL / Tailwind CSS

WordPress Developer

- Designed and developed a modern and fully responsive website for SR Tech on the WordPress platform.
- Collaboration avec le client pour s'assurer que le design et la fonctionnalité du site correspondent aux besoins spécifiques de l'entreprise, tout en respectant la structure WordPress et en garantissant la rapidité du site.
- Implemented best SEO practices to improve the site's visibility on search engines, while ensuring smooth navigation across all device types.

Technologies : WordPress / Elementor

Spira Nature

May 2024 - June 2024

Full Stack Developer

- Designed and developed a fully responsive and modern website for Spira Nature, focusing on user experience, performance optimization, and a polished user interface.
- Created a custom dashboard interface allowing administrators to track inventory, update product listings, and monitor site activity in real time — ensuring scalability and ease of maintenance.
- Worked closely with the brand owner to ensure the design aligned with the natural and aesthetic vision of the brand.

Technologies : React.js / Node.js / Express.js / MySQL / Tailwind CSS / sequelize js / styled-component
